

To whom ever it may concern,

I go to school where XM does not offer satalight radio, BUT when im home in DC this provides an invaulable serivce, i dont think that it is fair to cut XM's Weather and Traffic. They are doing this because they cant keep up and because XM's is offered 24 hours a day and we as a public especially in Washington DC were lucky to get the traffic or weather once in an hour.
